PROFESSIONAL SUMMARY

Aspiring AWS Cloud and DevOps professional with a B.Sc. Computer Technology background, seeking entry-level roles or internships as a Cloud Support Engineer, AWS Cloud Engineer Trainee or Junior DevOps Engineer. Completed hands-on AWS and DevOps training covering core AWS services, Linux, Docker, Kubernetes, CI/CD, infrastructure as code and monitoring, with a focus on cloud infrastructure and deployment automation.

TECHNICAL SKILLS

Cloud Computing and AWS: Amazon EC2, EC2 Auto Scaling, Elastic Load Balancing (ELB), AWS Lambda, Amazon S3, Amazon EFS, Amazon VPC, Amazon Route 53, Amazon RDS, Amazon DynamoDB, AWS IAM, AWS KMS, Amazon CloudFront, Amazon CloudWatch, AWS CloudTrail

Containers and Orchestration: Docker, Kubernetes, Amazon ECR, Amazon ECS, Amazon EKS

DevOps and Infrastructure as Code: Git, GitHub, Jenkins, Terraform, AWS CloudFormation, Ansible

CI/CD and Deployment: AWS CodePipeline, AWS CodeDeploy, Jenkins Pipelines, CI/CD Automation

Monitoring and Logging: Prometheus, Grafana, Splunk | **Operating Systems and Scripting:** Linux, Python (Basics)

PROFESSIONAL TRAINING

AWS and DevOps Engineer Training Oct 2026
Greens Technologys, Chennai

- Hands-on training on 25 AWS services across compute, storage, networking, databases, security and monitoring.
- Worked with DevOps tools: Git, Jenkins, Docker, Kubernetes, Ansible, Terraform, Prometheus, Grafana and Splunk.
- Also covered Linux and Python fundamentals.

PROJECTS

URL Security Scanner – Personal Project | Cybersecurity

- Built a web application that analyzes URLs for phishing-related and suspicious indicators.
- Calculates a risk score from the detected signals and classifies sites as Safe, Suspicious or Dangerous.

Error Explanation Assistant – Personal Project | Artificial Intelligence

- Developed an educational tool that explains programming errors in simple language.
- Identifies what went wrong and where, with beginner-friendly guidance to help users fix the error.

CERTIFICATIONS AND COURSES

Certification: Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle

Courses and Specializations

- AWS Certified DevOps Engineer – Professional Specialization – Coursera (online specialization)
- DevOps Complete Course – Coursera
- Foundations of DevOps and Git – Coursera
- Introduction to Cloud Computing – Simplilearn
- Prompt Engineering Applications – Simplilearn

EDUCATION

Bachelor of Science (B.Sc.) in Computer Technology 2023–2026
Sri Krishna Arts and Science College, Coimbatore

Higher Secondary – Ashram Matriculation Higher Secondary School
